

Azizbek Xayrullayev

Backend Developer

📞 Phone: +998 88 566 69 99 | [🔗 LinkedIn](#) | [💻 GitHub](#) | [✈️ Telegram](#) | [✉️ Gmail](#)

Summary

Motivated and detail-oriented Backend Developer with hands-on experience in Node.js, NestJS, Express.js, and TypeScript, and React. Skilled in designing and implementing REST APIs, developing secure authentication systems (JWT & OTP), and managing both SQL and NoSQL databases. Writes code that follows SOLID and DRY principles, ensuring scalability, maintainability, and readability. Passionate about delivering clean, efficient solutions while continuously learning and improving development practices.

Technical Skills

- Languages: JavaScript (ES6+), TypeScript
 - Frameworks: NestJS, ExpressJS, KoaJS, Fastify, React
 - Databases: MongoDB, PostgreSQL, MySQL, Redis
 - ORM/ODM: Mongoose, TypeORM, MikroORM, Sequelize, Prisma
 - APIs & Architecture: REST API, GraphQL, Socket
 - Tools: nodemailer, npm, winston (logger), GitHub, Postman, Swagger
 - DevOps: Docker, PM2, Nginx, CI/CD
-

Education

Tashkent University of Information Technologies (TATU)

Bachelor's Degree – Computer Engineering

Najot Ta'lim Full Stack (NodeJS, ReactJS) course Tashkent, Uzbekistan | Jan 2025 - Present

- Learned Frontend (React.js, Next.js) and Backend (Node.js, Express.js, NestJS)
 - Built multiple production-ready projects, enhanced teamwork, problem-solving, and debugging skills, and gained valuable experience collaborating effectively with frontend developers.
-

Soft Skills

- Quick to grasp and apply new technologies and tools
- Strong problem-solving abilities and stress resilience
- Collaborative team player with effective communication skills
- Highly adaptable and self-motivated with a continuous drive for improvement
